

2021 DUNE PALIOREMA

Our 2021 DUNE Paliorema is produced from a very low cropping shiraz vineyard, which we blend with a small amount of sangiovese.

The fruit is hand-picked, de-stemmed and undergoes fermentation in small open fermenters, no additions of any kind.

The result is a lively and fresh wine that shows depth and concentration.

Will benefit from decanting or airing for 30 minutes before drinking.

Aromas of mulberry, spiced plum, cinnamon and new leather. A plush palate of summer berries, fresh strawberry and dried thyme.

Comp: 92% Shiraz, 8% Sangiovese

Region: Blewitt Springs sub-region, McLaren Vale

Alc: 14.0%

pH: 3.70

TA: 6.35 g/L

VINTAGE 2021

2021 will be remembered as one of the great vintages in McLaren Vale. The vintage started off well with slightly above average rainfall through the winter and spring of 2020. Once the growing season commenced, we had healthy vines, and mild conditions through spring and summer. We had average yields across most white varieties with the resulting wines showing great clarity of aromatics, and in reds, fantastic fruit condition resulted in vibrant primary fruit.
